

# Invitation to NKT Capital Market Day in Cologne on Wednesday 19 September 2012

In recent years the NKT Group has positioned itself for greater exposure in the global energy infrastructure segment. With the Group's biggest investment ever the NKT Cables high voltage and submarine cables factory in Cologne is nearing full integration and operations.

The Capital Market Day will take place at NKT Cables' headquarters in Cologne. At previous CMDs we have shown you the very early stages of the factory with few machines operating and production spread out on both the old and the new factory. Now, construction and relocation has been completed and you will have the opportunity to see how cables are produced at our modern factory.

With a new management in place, we look forward to presenting the state-of-the-art factory at a full-day event which will be attended by the NKT Holding Management and the NKT Cables Group Management.

## Practical information

If you are travelling from Denmark we recommend the flight from Copenhagen 08:10 (SK 1629), arriving at Düsseldorf 09:30. Flights should be booked individually.

NKT will arrange transport from and to Düsseldorf Airport. If you arrive from other destinations the meeting place for the event is at the gate at the venue address.

Entry to the park is very restricted and you will only be allowed access as part of the group.

The official part of the event is expected to run from 11:00 to approx. 16:30 and NKT will host a lunch during the visit.

We look forward to your participation. Please register before 20 August by email to Annie Breiner: [annie.breiner@nkt.dk](mailto:annie.breiner@nkt.dk), stating your name, organisation, number of participants and whether you will join us on the bus to and from the airport.

Yours faithfully,  
**NKT Holding A/S**  
Michael Hedegaard Lyng  
Group Executive Officer; CFO
