NKT communicates two years of historical business line financial information

In company announcement no. 25 of 19 November 2025, NKT announced an update to its business line names and focus as part of the new Charging Forward strategy. The changes were implemented on 1 January 2026.

Financial reporting in the updated business line structure will commence with the release of the Q1 2026 interim report, expected on 13 May 2026. To support a clear understanding of the reported figures, NKT is therefore communicating two years of historical financial information by business line.

This announcement does not change NKT's financial outlook for 2026.
